

PROF. Donatello Cardone

SCIENTIFIC CURRICULUM VITAE:

Donatello Cardone graduated with first Class Honours in Civil Engineering (Structures) at the University of Basilicata (UNIBAS) in February 1997. He achieved a PhD degree in "Structural Engineering" from the University of Salerno in January 2001. From 2003 to 2006, he was Temporary Professor of "Structures in Seismic Zones" at the Faculty of Engineering of UNIBAS (MT). Since 2006, he has been Assistant Professor of Structural Engineering, with the chairs of Structures in Seismic Zones (6 CFU), Earthquake Engineering (9 CFU) and Innovative Design in Seismic Zones (3 CFU) at the Faculty of Engineering of UNIBAS. He is co-author of 1 patent and more than 100 scientific papers, paying particular attention to seismic topics. His main research interests are: (i) passive control of seismic vibration of structures, (ii) seismic design, assessment and retrofit of RC buildings and bridges, (iii) innovative materials and techniques for seismic applications. He is a member of ANIDIS since 2000, IJBRC since 2001, GLIS since 2003, IABSE since 2007, Working Group #3 of the CEN Technical Commission 340 "Anti-seismic devices" since 2002 and Task Group #11 "Seismic Design, Assessment and Retrofit of Bridges" of the EAE since 2007. Since 1997, he was involved, as participant or main investigator, in many international and national research projects, as well as in research contracts with public institutions and private companies. Since 1997, he has been main/joint supervisor of more than 40 BSc/MSc theses and 7 PhD theses on topics mainly related to Earthquake Eng.. Since 2008, he is vice-coordinator of the PhD Course of "Seismic Risk, Structural Eng. and Geotechnics" of UNIBAS. He is referee for several international scientific journals.

PROFESSOR'S OFFICE HOUR:

Wednesday 4:00-6:00pm. Macchia Romana Campus, School of Engineering, 3rd floor, room n. 8.
