

Università degli Studi della Basilicata
Scuola di Ingegneria

PROF. Maria Ragosta

SCIENTIFIC CURRICULUM VITAE:

Maria Ragosta is Associate Professor of Experimental Physics at the School of Engineering of the University of Basilicata. She received the degree in Physics from the University of Naples Federico II in February 1989 and from 1993 she is with the Department of Environmental Engineering and Physics of the University of Basilicata. From 1996 she is with International Environmetrics Society, with Mediterranean Scientific Association of Environmental Protection and with SIF Italian Society of Physics. She is member of CINFAI. She is reviewer of many international journals and from 2008 she is peer-reviewer for projects of the Georgia National Science Foundation. She is member of the Board of the Doctorate School in Engineering. She has been involved in several research projects funded by the Italian Ministry of University and Scientific Research and other public and private institutions. She has published about 70 journal and conference papers. Her research interests concern development of monitoring integrated techniques and characterization of multidimensional correlation structure among environmental variables.

PROFESSOR'S OFFICE HOUR:

Wednesday 14.30-16.30 and Thursday 12.30 –13.30 Macchia Romana Campus, Engineering School, 5° floor, room 66
