SCIENTIFIC CURRICULUM VITAE:

Selected in the Italian National Scientific Habilitation 2012 as Associate Professor in the sector 08 / F1 – Urban and Planning and Urban Design.

Senior Lecturer of Spatial Planning at the University of Basilicata (Southern Italy). He took his PhD in 'Sciences and methods for European cities and territory' at the Department of Civil Engineer of the University of Pisa and he carried out other researches in Lyon at the Laboratory for Information System Engineering directed by Robert Laurini. He has published a lot of ISI papers and books in the field of spatial analysis, modelling, geocomputation and planning. He is member of scientific committees of several international conferences and he is Chair/Co-chair of several international workshops. He is General Co-chair of the International Conference on Computational Science and Its Applications (ICCSA). He is member of editorial board of "International Journal of Knowledge Society Research (IJKSR)" IGI Global, "International Journal of Agricultural and Environmental Information Systems" IGI Global, "Future Internet" MDPI - Open Access Publishing, "Regional Science Inquiry" and "GEOmedia".

Member of S4 (Spatial Simulation for Social Sciences) network and Member of management committee of ENVISA (Environmental Issues in Spatial Analysis) of S4 working group.

Member of Commission on Geospatial Analysis and Modeling of International Cartographic Association.

Member of Committee of Commission on Modelling Geographical Systems of International Geographical Union

Member of Scientific Council of Federation of Scientific Associations for Territorial and Environmental Information (ASITA).
