PROF. ssa Caterina Di Maio

---

---

**CURRICULUM VITAE:**

Caterina Di Maio is full professor of Geotechnical Engineering at the University of Basilicata, Potenza, Italy. She specialises in the areas of experimental soil chemo-mechanics and slope stability/landslides.

**TEACHING**

- Geotechnics (9 credits) for the Bachelor Degrees in Civil and Environmental Engineering.
- Slope Stability (9 credits) for the Masters Degree in Civil Engineering.

**MANAGERIAL AND PROFESSIONAL ACTIVITIES**

- Head of the Department of Structures, Geotechnics and Applied Geology (2007-2012)
- Director of studies of Civil Engineering (2007-2009),
- Director of the PhD courses in "Seismic Risk, Structural and Geotechnical Engineering" (2007-today)
- Member of the "Building Staff" of the University of Basilicata (2008-2009).
- Member of the Academic Senate of University of Basilicata (2010-2012),
- Member of the Administrative Council of University of Basilicata (2012-2015)
- Editorial board member of the Italian Geotechnical Journal (2006-2010 and 2016 - today)
- Editorial board member of Engineering Geology (2014-today)
- Local coordinator of two bi-annual Research Projects of National Interest (Cofin 2001 and 2003)
- Local coordinator of a three-annual Research project (PRIN 2010-2012: Landslide risk mitigation through sustainable countermeasures)
- Local coordinator of a three-annual Research project (PRIN 2015: Innovative monitoring and design strategies for sustainable landslide risk mitigation)
- Vice-president of the National Group for Coordination of Geotechnical Studies GNIG (2012-2015)
- Member of TC 308 Engineering Education of ISSMGE (2015-today)
- Member of JTC1 Joint Technical Committee on Natural Slopes and Landslides (JTC1) of Federation of International Geo-engineering Societies (FedIGS)(since 2019).
- Head of Studies on hydrogeological risk mitigation for railways required by national companies (Rete Ferroviaria Italiana, 2017)
- Expert in hydrogeological risk in the technical-scientific committee of ARIES (Regional Association of Engineers for Environmental and Seismic Emergency), since 2017

---

---

**PROFESSOR'S OFFICE HOUR:**

9-13 Martedì nel laboratorio di Geotecnica
