PROF. Carmelina Frammartino

---

---

SCIENTIFIC CURRICULUM VITAE:

Carmelina Frammartino graduated cum laude in Mathematics on 11 May 1999. From 2000 to 2002 she had a fellowship at the Department of Mathematics of the University of Basilicata dealing with the numerical treatment of some classes of integral equations. Since the 2001/2002 school year he has been teaching Mathematics in the lower secondary school and then, since 2005, in the secondary school. In 2010 he obtained the international phd in Mathematics at the University of the Study of Basilicata. From 2000 is an adjunct professor for several courses at the Department of Mathematics, Computer Science and Economics, the Department of Human Sciences, the Faculty of Engineering and the Faculty of Pharmacy. Her main interests include the numerical treatment of problems with boundary conditions (BVP) of order  $s, s \geq 2$  on limited and unlimited intervals.
